

Miguel Jesus

Senior Product Designer

Porto, Portugal · miguel.jss@gmail.com · linkedin.com/in/migueljss · migueljss.com

Senior Product Designer with 20+ years across graphic, web, and product design, with the last decade focused on UX/UI for SaaS and mobile products. I've co-founded and led design for collaboration tools in the Atlassian ecosystem, and designed sustainability-driven food-tech apps, owning the product experience end-to-end, from discovery through launch and iteration. I use AI tools actively across ideation, writing, research, and visual exploration to move faster and think more clearly. I connect user needs with business goals, and I'm equally comfortable going 0 to 1 or scaling what already works.

CORE SKILLS & TOOLS

- **Product & UX:** Product discovery, UX strategy, user research, information architecture, interaction design, design systems, accessibility.
- **UI & Visual:** Interface design, responsive layouts, typography, branding.
- **Front-end:** HTML & CSS prototyping in code; building and shipping production sites, now with Claude Code.
- **AI Workflow:** Ideation, copy and UX writing, image generation, research (Claude, ChatGPT), AI features in Figma.
- **Domains:** B2B SaaS, Atlassian ecosystem, food-tech, mobile (iOS/Android), sustainability.
- **Tools:** Figma, Sketch, Adobe CC, Jira, Confluence.

EXPERIENCE

ikuTeam

CO-FOUNDER & FOUNDING DESIGNER

2018 – 2025 · Porto, Portugal

Co-founded and led design for ikuTeam's file sharing and collaboration apps, used by thousands of teams across Atlassian's Jira and Confluence.

- Defined product vision, roadmap, and UX strategy with engineering and PM, translating user feedback and analytics into prioritized releases.
- Designed core collaboration features, including file previews, permissions, and automations that teams used daily.
- Built and maintained a design system extending Atlassian's component library, adding custom components and aligning with their tokens for a consistent, native-feeling experience.
- Led user research (interviews, usability tests, beta feedback) to validate hypotheses and refine the core flows.
- Designed and hand-coded the marketing site in HTML and CSS, owning the full brand and communication experience.
- Established brand identity and visual language across product UI, marketing site, and customer communications.

Foodways

PRODUCT DESIGNER

2018 – 2020 · Lisbon, Portugal

Sole designer for Foodways' mobile apps (iOS/Android) supporting sustainable food practices and waste reduction, across consumer and professional-kitchen products.

- Designed MyFoodways end to end, an ingredient-led recipe app that helped households cook with what they already had, balancing user goals with business KPIs.
- Ran user research that reshaped Food Save, a tool for professional kitchens, from a competition concept into a practical library of waste-reducing measures managers would actually use.
- Designed the Waste Tracker, a companion data product for logging and visualizing kitchen waste, owning the flows, data visualizations, and printed labels that tied bins to screens.
- Created high-fidelity UI and specs for engineering handoff, with accessibility considered throughout.
- Covered product management during the PM's paternity leave, from vendor selection to a native-versus-shared-build decision, while continuing my design work.
- Delivered marketing and communication assets to support app launches.

TOPDOX – Team Documents

CO-FOUNDER & FOUNDING DESIGNER

2014 – 2017 · Porto, Portugal

Co-founded TOPDOX and shaped company mission, product strategy, and design direction for B2C document management ecosystem.

- Defined product vision and UX strategy for document management and collaboration features, aligning design with business goals and user needs.
- Developed brand identity, visual design system, and communication strategy across product, marketing, and sales.
- Designed user flows, wireframes, and interfaces for web and mobile apps, owning the end-to-end design process.
- Participated in the Rockstart Web & Mobile Accelerator (Amsterdam, 2014), working with international mentors on product strategy, business model, and fundraising.

Doist

GRAPHIC & UI/UX DESIGNER

2013 – 2014 · Porto, Portugal

- Refreshed the Doist brand identity with a new logo, typography, and visual language.
- Designed websites for Doist, Todoist, and Wedoist, establishing visual identity and user-centered layouts.
- Designed product UI components and artwork for iOS/Android apps, including visual scheduler and onboarding flows.

TOP Research

GRAPHIC & UI DESIGNER

2012 – 2014 · Porto, Portugal

Graphic design, web design, and iOS app interface design for research and technology projects, with a focus on information design, branding, and UI consistency.

INEGI/Mercatura

GRAPHIC & WEB DESIGNER

2006 – 2011 · Porto, Portugal

Branding, website and intranet design, and visual design for a technology and engineering research institute. Worked on multi-platform digital products and corporate identity systems.

Gabinete de Imagem FJJM

GRAPHIC & WEB DESIGNER

2005 – 2006 · Aveiro, Portugal

Graphic design projects (print and web) for Universidade de Aveiro and Fábrica CCV.
